Installation & Connection

Install the Peak ELD device in your vehicle

1. With engine off, locate the diagnostic port inside the vehicle. It is located in one of the four places:

2. Attach the device to the diagnostic port of the vehicle.

3. Once the device is installed, ensure the device is working properly as evidenced by a green LED light blinking. The green light starts blinking after a GPS & Cellular connection is initiated.

4. Securely mount your device in a location with no electrical components nearby. This will help prevent issues like ELD device interference and GPS signal disruption. It is recommended to position the ELD device visibly, ensuring an unobstructed view of the sky, as shown in the image below.

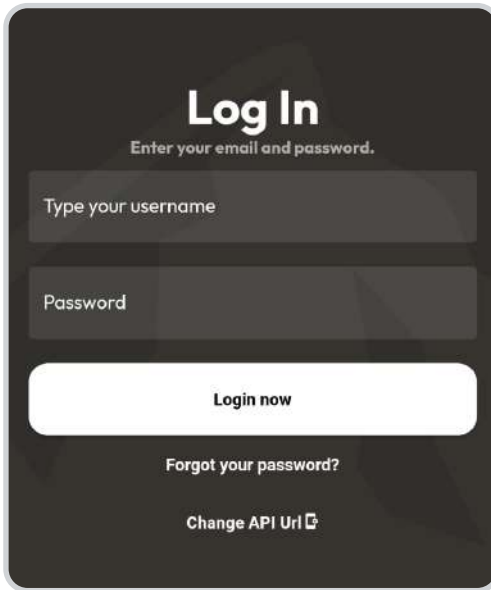

IMPORTANT: Please follow the above-mentioned instructions. Otherwise, you risk ELD device interference and GPS disruption, creating problems with the signal. Do not put an ELD device under the dashboard under any circumstances.

Installation & Connection

Install the Peak ELD App

1. For android phones and tablets download the Peak ELD App from Google Play Store. For iPhones and iPads download the Peak ELD App from the App Store.
2. Open the Peak ELD App.

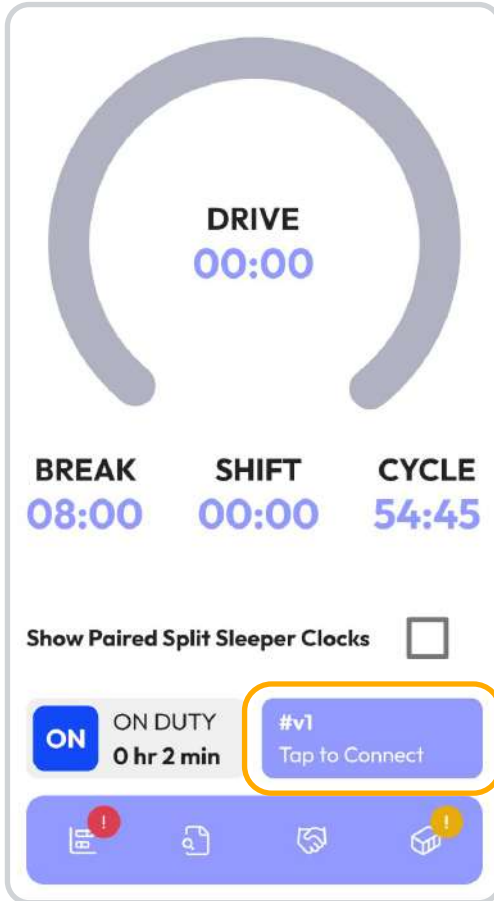

Login to the Peak ELD App and select a vehicle

Read the login details from your email. If you don't have login details yet, or you've forgotten them, contact your Carrier administrator.

1. Enter your login details and tap LOG IN, you will be prompt with Terms and Conditions.
2. Read the Terms and Conditions and tap AGREE.
3. Select your vehicle from the list, or search for one.
4. Tap ACCEPT, you will be prompt with a Settings page where you can review and edit settings details.
5. Tap SAVE.

! Dashboard View

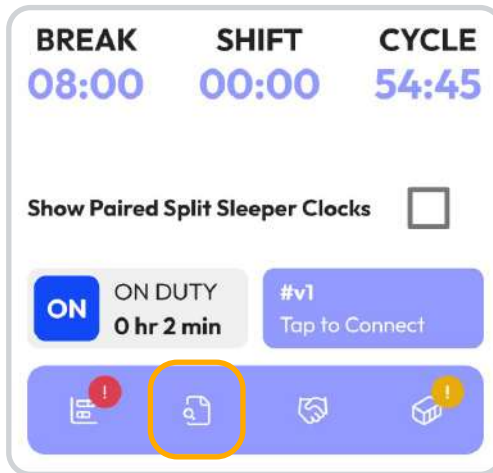

After successfully login & vehicle selection, the Dashboard page is open. Use Tap to Connect bar to connect to your vehicle.

Installation & Connection

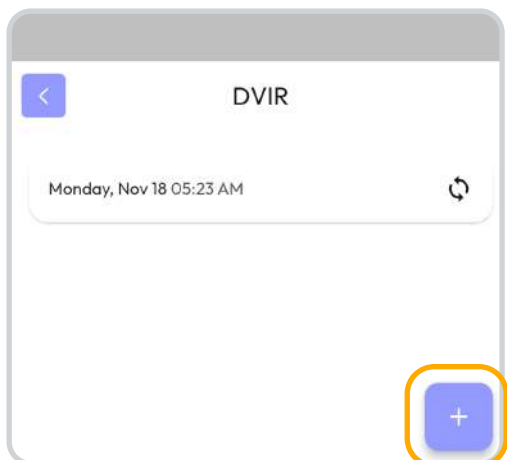

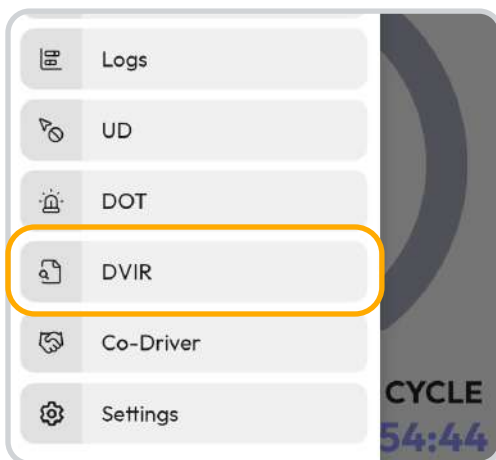

Complete Pre-Trip DVIR

Start a new pre-trip inspection report by tapping the DVIR button.

You can also Start Inspection from the left side menu by tapping the DVIR option.

1. From DVIR view, enter the odometer value and tap Start Inspection, if you are in Off Duty or Sleeper Berth status you will be placed to On Duty status. Pre-trip is selected by default.

2. Tap Add/Remove under Vehicle Defects and review each item from the list against your vehicle.

The screenshot shows a dark-themed mobile application interface for vehicle inspection. It includes several input fields: 'Odometer' with the placeholder 'Enter Odometer', 'Location' with 'Type your location', and 'Inspection time' with '02:27 AM'. Below these is a 'Vehicle Defects' section with a blue 'Add/Remove' button highlighted by a yellow border. Underneath the button, it says 'No Defects Found'. At the bottom of the form is a large blue button labeled 'Sign and Save the Report'.

3. If you identify a defect, select the appropriate defect in the list and enter a comment and photo. Tap Save.

The screenshot displays a list of vehicle defects with checkboxes and dropdown arrows. The items are: 'Hitch' (checked), 'Landing Gear' (checked), 'Lights' (checked), 'Reflectors' (unchecked), and 'Roof' (unchecked). At the bottom of the list is a blue 'Save' button highlighted by a yellow border.

4. If Trailer is applicable, repeat step 2 and 3 under Trailer Defects.
5. Tap Sign and Save the Report.

Trailers & Shipping Docs are also available through the Logs folder.

1. From your Dashboard view, tap the  icon.
2. Select Logs.
3. Tap the daily log at the top of the list.

4. Scroll down (to the bottom of the screen) and tap the Trailer or Shipping Docs field.
5. Enter your trailer or shipping doc numbers. You will see "Trailer saved" OR "Shipping Docs saved" confirmation message.

Installation & Connection

Connect your mobile device to the Peak ELD device

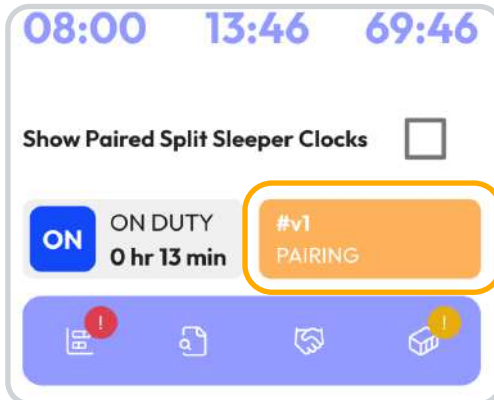

! Enable Bluetooth

Please ensure that Bluetooth is enabled on your device before you connect to the Peak ELD device.

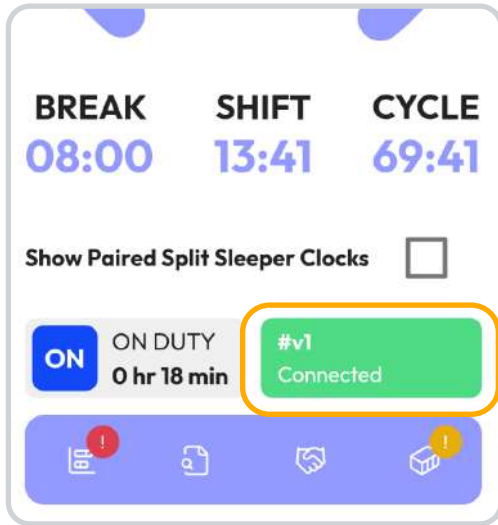

In the main Dashboard view there is Tap to Connect bar - just below the vehicle number

1. Use Tap to Connect bar to connect to your vehicle. The device will attempt to connect to selected vehicle ELD via Bluetooth. ELD bar will change from red to orange: Pairing.

2. An icon (📶) will appear in connection bar upon successful connection.

✓ Ready to Drive

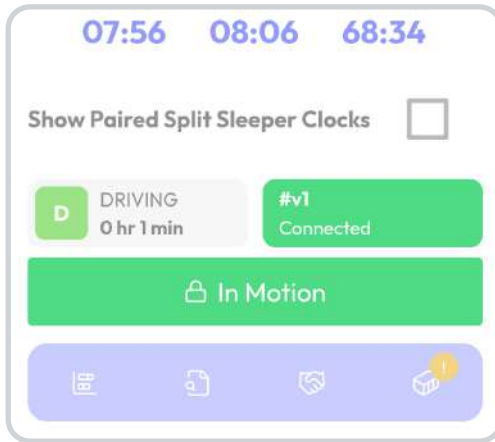

Once you've completed all of the pre-trip tasks in this section, you're ready to drive.

When your vehicle is moving at 5 MPH or greater, your duty status will automatically switch to Driving, in accordance with the ELD mandate.

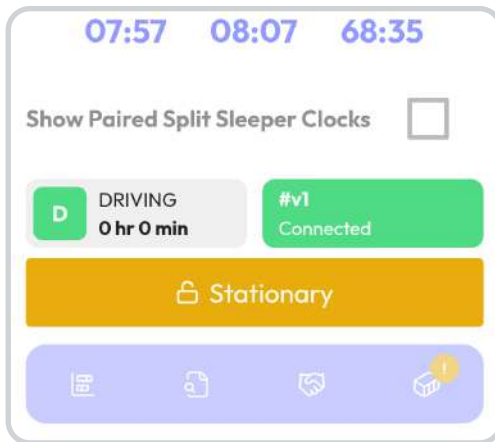

Installation & Connection

Record Hours of Service

1. When your vehicle reaches 5 MPH or greater, Peak ELD is indicating that vehicle is In Motion and your duty status will automatically change to Driving.

2. When the vehicle stops (0 MPH) it's considered Stationary.

3. You can change your duty status by tapping the Driving and selecting some other duty status.
4. If your vehicle remains Stationary for five minutes you will be prompted with a question if you would like to change your duty status. If you ignore this question your duty status will be changed to On Duty.
